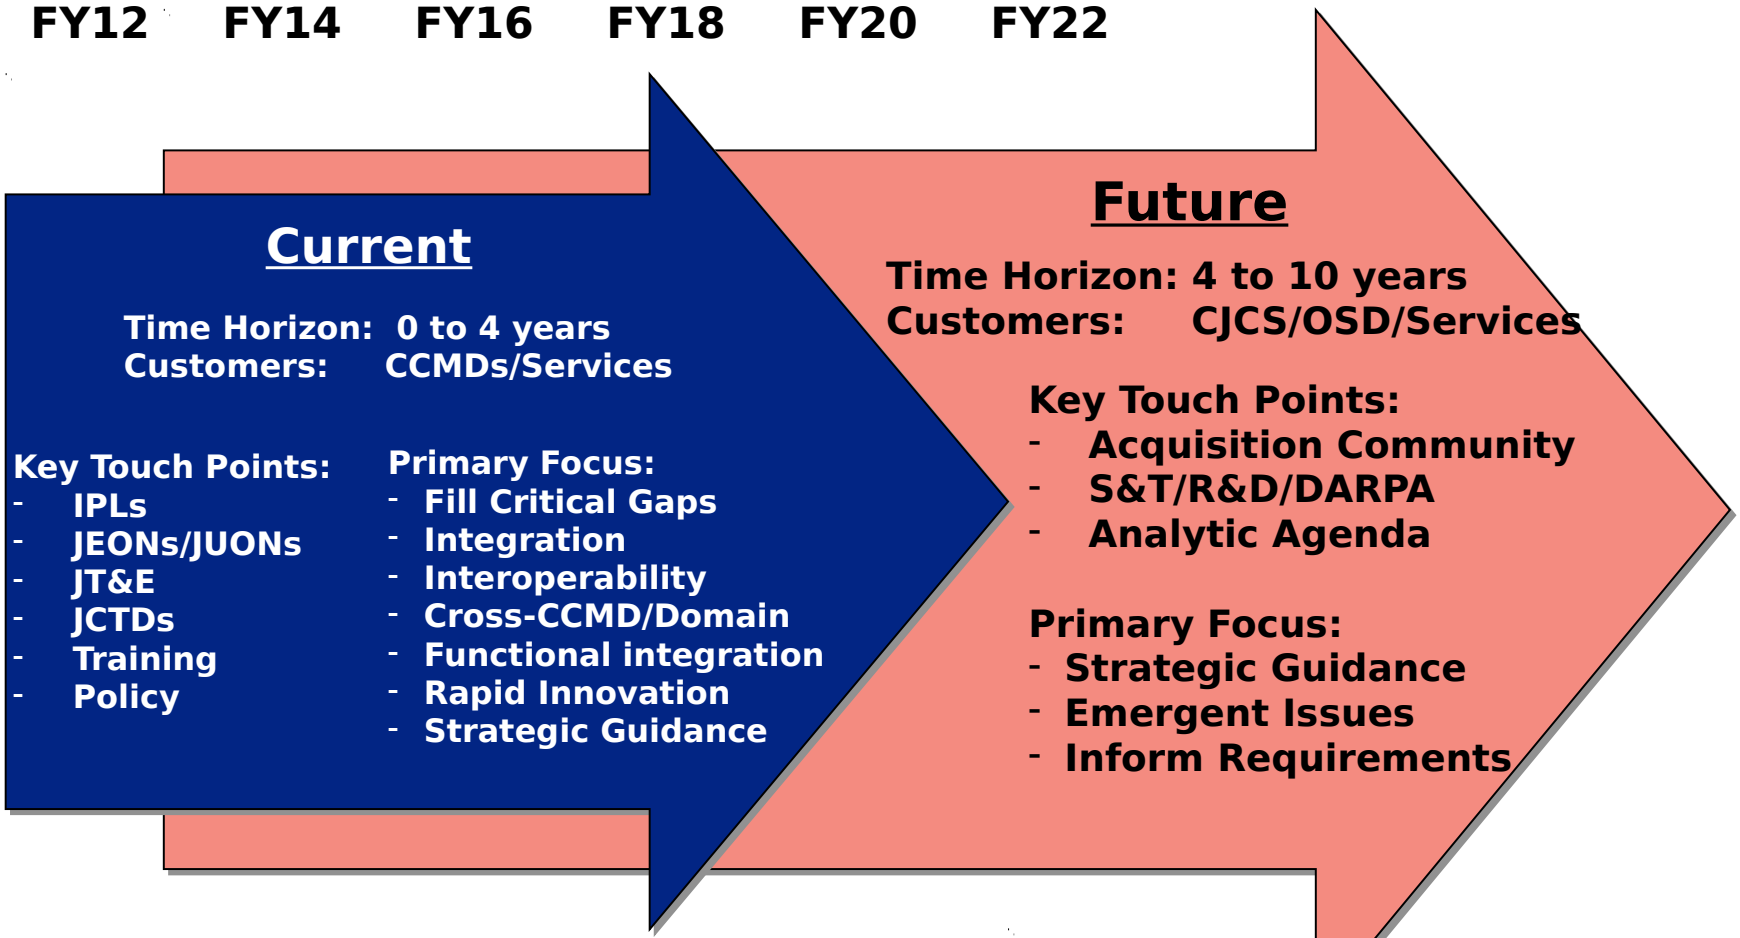
Joint Worldwide Training and Scheduling Conference

Can Be A Mechanism For Joint Force Development

An essential Joint Force Development task of JCW is integrating valid joint concepts and solutions, lessons learned and doctrine into joint training events to deliver enhanced joint operational capability.

Joint Force Development Timelines



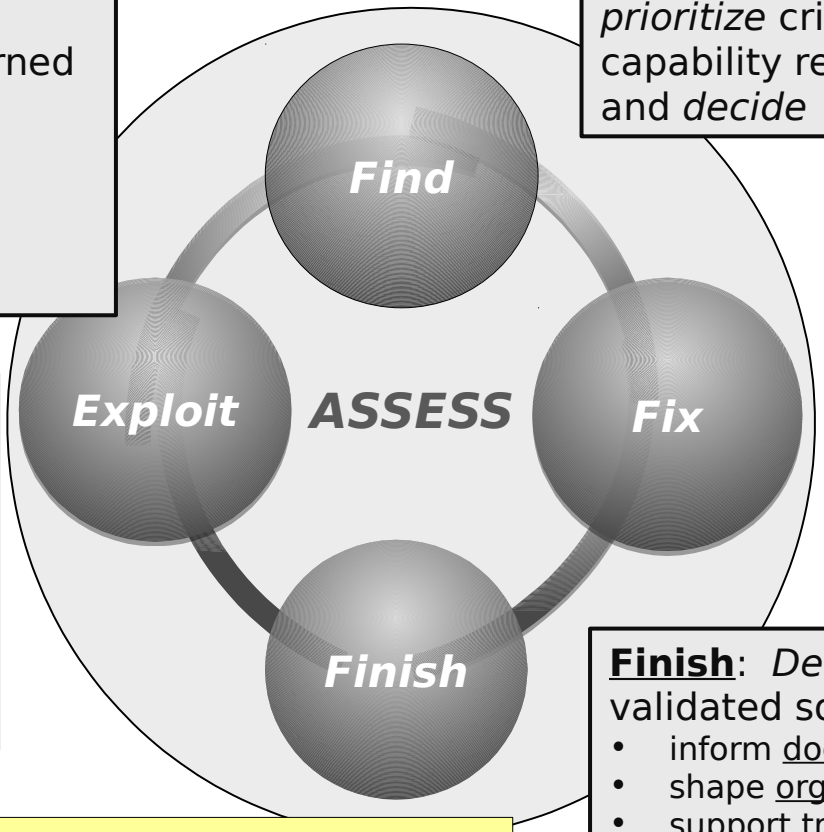
***Joint vision**: Application of a holistic approach to determine, prioritize and address joint force capability development. The Integration of assigned statutory duties and synchronization with other inter-organizational joint force development efforts to effectively and efficiently solve current operational shortfalls, while identifying and developing the future joint force.*

Joint Force Development

F3EA Methodology

Assess: *Continuously evaluate* training, operations, lessons learned and Joint Force Development efforts to validate implemented solutions and identify critical capability gaps.

Find: *Scout*, *identify* and *prioritize* critical capability requirements, and *decide*



Fix: *Develop* (innovate) & *validate* solutions (concepts, TTPs, etc.) through analysis, test & evaluation and experimentation.

Exploit: *Implement* relevant solutions across the Joint Force through changes in doctrine, training, education, exercises and appropriate programs and processes

Finish: *Deliver* concepts and validated solutions that:

- inform doctrine
- shape organizations
- support training development
- inform complementary materiel reqts.
- influence leader development
- inform personnel programs
- inform facility requirements

"A deliberate continuous cycle of innovation and change that delivers coherently integrated joint capabilities to the current & future Joint Force to improve operational effectiveness in all domains across the range of military operations."

Proposal for Future Worldwide Joint Training and Scheduling Conferences:

Consider Shifting to a Joint Force Development Planning Conference Format

- Less Focus On Scheduling and De-confliction
- More On Deliberate Planning to Integrate Concepts, Solutions, Lessons Learned, Doctrine and select CCMDs and Service Joint Training Events
- Bring CCMDs and Service Joint Trainers and Joint Developers Together Around Warfighter Focus Area (WFA) Working Groups
- Conduct Deliberate Campaign Planning to Integrate JS J7 Core Functions of Concepts, Solutions, Training, Doctrine, Lessons Learned to Support Development of Joint Force 2020.

Conference Design Concept

- Biannual Deliberate Planning Conferences (Fall &Spring)
- CCMDs J7 and J8 Planners and Project Leads with Joint Staff , Service, OSD, Interagency & Multinational Stakeholders
- Warfighting Focused Area Working Groups (06/GS 15 Leads with Key Representatives from Across Enterprise)
  - Anti-Access/Area Denial (A2/AD)
  - Nuclear Deterrence/ Weapons of Mass Destructions (ND/WMD)
  - Homeland Defense Ballistic Missile Defense (HD/BMD)
  - Irregular Warfare (IW)
  - Space/Cyber/ISR
  - General Purpose Force Special Operation Force (GPF-SOF) Integration
  - Building Multinational Partners Planning and Synchronization
